Mercedes-Benz Three Point Motors

## Camper Van Conversion By Shelter Overland:

### INTERIOR UPGRADES

**We use NAUF, FSC, factory finished plywood in maple for our interiors:**

- Wall Panels - Solid core refinished maple plywood wall and ceiling panels, secured with stainless fasteners.
- Curved wooden electrical conduit covers for easy access for future additions.
- Wooden Electrical Box mounted on the driver's side rear, and overhead control panel for lighting, heater, and any other controls you select.
- We use Marmoleum flooring as our standard flooring material.

### **Insulation and Sound Proofing:**

We start by covering the floor and cab with a sound proofing insulator - Rattle Trap. Then we insulate the walls with rigid polyisocyanurate panels that we have CAD modelled, and CNC cut. Then we seal it with closed cell polyurethane spray foam for a tight fit.

- Rattle Trap floor and cab covering for sound proofing.
- EkoFoil Rigid panels deliver a quiet, warm cabin, with R6 - R18 insulation in the walls and ceiling

### **FlareSpace Window Flares:**

These Flares allow you to lay sideways in the van for a total of 6'7"-6'4". Glass or metal frame is removed, flares are installed, with opening slider windows on both flares.

### **3 Panel Bed System with L Track Mounts:**

The Shelter Removable Platform Bed is mounted at the rear of the van below the main windows. We use an extruded aluminum frame with 3/4" europly maple pre-finished formaldehyde free plywood that is CNC cut with hexes to reduce weight, keep strength, and add air flow.

*Please Note: mattresses for the platform are not included.*

### **1 Overhead Cabinet (2 compartments):**

Like all our cabinetry, we use an anodized aluminum exoskeleton with Europly factory finished maple, and Blum hardware hinges for the doors. Each cabinet has two compartments. The drivers side has room for a second upper cabinet if you would like to upgrade. We use L track on the wall and ceiling to mount your cabinets, making them removable, but also giving you anchor points for hanging boards, clothes, and even a hammock.

### **Shelter Headliner Shelf :**

This adds significant storage in your van with a shelf above the driver and passenger seats made of bent aluminum, with laser cut shelter logos; fabric lined, with IPE overhead handles.

## **GALLEY UPGRADES**

### **Kitchen :**

Custom Kitchen Cabinet made from 80/20 aluminum exoskeleton frame cabinet with Acacia counter.

- Sink with 16 gallon fresh water tank, 14 gallon grey water tank and digital monitor.
- Dometic CFX 65 Dual Zone Fridge/Freezer Slide out Fridge
- Drop down cutlery drawer
- Induction stove top

### **Water Tank System:**

This includes a pump, accumulator, two 16 gallon tanks, and a gauge to monitor fresh and grey water system.

- Aquor stainless quick connect water inlet and wash down outlet
- Fresh water fill hose
- Wash down coiled sprayer
- Heat pad for the freshwater tank

### **Thetford curve cassette toilet on 500lbs lock-in lock-out slides**

### **Custom Removable Adjustable Table:**

Custom table off an adjustable mount behind the swivel front seats and made of 3/4" maple europly.

## **HEATING/COOLING/WINDOWS:**

We add aftermarket opening side windows, and cut a hole in the roof for a fan to manage ventilation.

- Espar D2 12V DC Diesel air heater under passenger seat
- 2 opening side windows with screens from CR Lawrence to replace fixed windows
- Maxxair 7500K Fan with intake or outtake

## **ELECTRICAL/LIGHTING SYSTEM:**

We've added the CORE electrical system that will let you power things on the road, while leaving room to upgrade later.

- Blue Seas Electrical Monitoring Computer calculates Voltage and Amp Hours remaining in your system.
- 510 Ah Victron Supercycle AGM Battery for great longevity and D.O.D.
- Victron 3000W Inverter AC for your laptop, while the rest of the system runs DC
- Two AC Outlets and USB port
- Vehicle Alternator connection for charging (provides approx. 40A at idle & 60A driving)
- Four 12V LED DC soft white ceiling puck lights
- 3 Gang BlueFire Switches with room to add connections.
- 30Amp Victron Shore Power for charging along with the alternator

## **EXTERIOR UPGRADES**

We have added:

- Matte black Mercedes symbols for front grill, and back door
- Shelter Skid Plates
- Shelter Running Boards
- Fiamma Awning
- 4 Shelter Roof Rack Bar
- Shelter Side Mount Ladder
- BFG K02 Tire Upgrade
